(Ulster) to escape religious persecution. Later he immigrated to America and settled in Virginia. He served as a captain of the Virginia Forces in the Revolutionary War.) was born January 03, 1740/41 in County Donegal, Ireland, and died January 15, 1813 in Augusta Co., VA. He married FLORENCE GRAHAM (Source: David Graham, History of The Graham Family, (1899).) February 17, 1762 in Augusta Co., VA, daughter of JOHN GRAHAM and ELIZABETH ???.

Notes for JAMES GRAHAM , SR.:

In the spring of 1777 Indians made an assault on the Graham homestead. James blocked the door with a heavy bench and a tub of water. A man named McDonald (or Caldwell) was shot and killed. Unable to gain entrance to the house, the Indians turned their assault upon the detached kitchen. In this outbuilding slept a young Negro man and two of the Graham children. The Negro, whose name was Sharp, tried to escape by climbing up the chimney, but was found, tomahawked and scalped. The Indians shot up through the ceiling wounding the boy, John Graham, in the knee, then dragged him and his sister down and out into the yard. Finding that John was wounded too badly to be taken prisoner, they at once dispatched him with the tomahawk and carried off his scalp.

Col. Graham was shooting into the yard from the upstairs porthole. He had killed one or more of the Indians. When daylight came, it was found that three were dead and 7 yr old Elizabeth was missing.

A few years after this occurrence, an Indian skeleton was found about two miles from the scene. Graham secured the jaw bone of this skeleton and used it for a gunrack for a number of years.

Graham began searching for his daughter and located her among the Shawnee tribes in what is now Chillicothe, Ohio after many months. She had been adopted by a squaw of one of the chiefs of the Cornstalk family of that tribe.

In 1785 Colonel Graham finally succeeded in ransoming and bringing his daughter back home. By now, she had spent half her life with the Indians and it is said that she had an Indian lover. The price paid for her release was the release of an Indian prisoner, thirty saddles and a lot of beads and other trinkets, and about \$300.00 in silver. The exchange took place at Limestone Creek, where is now Maysville, KY. Graham reversed the shoes on the horses to prevent recapture.

The homecoming was a difficult one. The white customs were strange to Elizabeth. She attempted to run away and return to the Indians, and "ever and anon would clamor for the wild life of the wigwam". Finally, with time, she adjusted, and married Joel Stodghill in 1792 and settled on Hans Creek, Monroe Co., WVA, and to them were born five sons and four daughters.

Notes for JOHN W. DUNLAP:

John W., Lora, and their mother still lived on their father's farm in 1899, it being part of the same farm owned by their great grandfather, John Graham, Sr. purchased in 1746. From David Graham, written 1899:

"IT was the privilege of the writer to visit this old "homestead" for the first time in May, 1898, and viewed the landscape o'er, where was reared his grandmother, his great uncles, and aunts more than one and a half centuries ago. The original form of six hundred and ninety six acres lies on both sides of the Calf Pasture River; is mostly bottom land, and it is located about four miles below Deerfield and 25 miles northwest of Staunton, at Marble Valley, P.O., extending a distance of two miles along the river; portions of it is now owned by a Wm. Clayton in removing the old stone foundation during the summer of 1898, and after the writer's visit, found

on one of the corner stones imbedded in the old wall the date "1755" cut in the stone. At the time of the writer's visit the wall was intact and well preserved, though the mill itself had long since been torn down. The water power of this mill was furnished by two large fountain springs which had their source near each other, on an elevation overlooking the mill. There is little doubt but that this was the first mill built in that section of the country. There now stands a good flouring mill a short distance below the old foundation was that is run the year round by the two springs as nemed, and does a good paying business."
